Claims 1, 3, 7, 11-16, 22, 24, 27 and 31-35 are rejected under 35 USC 102 as anticipated by Hirama for the reasons stated in the previous office action.

Claims 2, 6, 8-10, 17-21, 23, 25, 26 28-34 and 36-39 are rejected under 35 USC 103 as being unpatentable over Hirama for the explicit reasons set forth in the prior office action.

Regarding applicants arguments, it is noted that the claimed structure is the deciding patentability criteria, not design equations, possible variations etc. Thus that the frame can be any shape fails to distinguish from Hirama's circular shape. Applicants claimed piezo-element does not distinguish from Hirama's AT- at quartz piezo-electric resonator. The examiner does not see Hirama as limited to only 3 layers. It is also noted that most of applicants claims refer to only three layers. Thus applicants arguments are not persuasive.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
